EMPLOYMENT HISTORY

Software Engineer at Redgate Software ***June 2025 – PRESENT***

Developed and maintained features for Redgate Monitor as part of a team. Delivered well-defined tasks working solo, in pairs, and in mob sessions, writing clean, tested code. Collaborated with product managers and designers to understand customer problems and ship solutions.

Software Engineer Intern at Redgate Software ***July 2024 – Sept 2024***

Responsible for partaking and leading Agile meetings in a team, collaborating and working individually on tickets for Redgate Monitor, and presenting findings to members of the team and company. Used C#, React and Typescript as part of tickets to design backend and frontend components. Also used Batch scripting to help run Docker containers.

Digital Student Ambassador at ARU Peterborough ***Sept 2022 – Sept 2024***

Responsibilities include writing blogs about the student experience, answering prospective students' questions online, monitoring and responding to applicant groups, and creating video content for course and university activities.

PROFESSIONAL DEVELOPMENT

Ford's Digital Advanced Virtual Work Experience ***2024***

Used Flask, Redis and Docker as part of virtual work experience to create Tributary GitHub repository.

MOOC of CS50's Introduction to Artificial Intelligence with Python by Harvardx ***2023***

Completed a short course introducing key principles of AI and how they can be implemented with Python/

MOOC of Intro to CS50x by Harvardx ***2020***

Completed a short course introducing the subject area of computer science. The course included multiple challenging programming tasks that utilised C and Python.

VOLUNTEERING/WORK EXPERIENCE

Sunday-School Teacher ***Jan 2023 – PRESENT***

Responsible for preparing material from a syllabus and teaching to children each week. Also help oversee student council group and guide their activities.

ARU Student Union Student Trustee ***June 2024 – May 2025***

I am part of the board of trustees who have ultimate responsibility for the governance, budget and strategy of the Students' Union. My role as a student trustee is to represent the voice of students at ARU on the board during meetings.

President of computing society at ARU Peterborough ***Oct 2023 – Feb 2025***

As president of the computing society, our current priority is to gain additional members so that we can formally run events.

Course representative for Applied Computer Science BSc ***Sept 2022 – April 2023***

I was voted in by my peers to ensure they felt comfortable in their studying environment. I obtained feedback that I then convey to course leaders and support services in the university to enrich their experiences. I also attended a course feedback forum each trimester that allowed me to express student opinions to the university's senior leadership team members.

Head boy of St John Fisher Catholic High School ***Jan 2020 – Jan 2021***

Being head boy allowed me to develop leadership skills and analytical thinking as I and others within the student leadership team organised events such as The Great Get Together which involved feeding all students home-brought meals, this comes with managing constraints to employ appropriate decisions. Additionally, I developed independence and perseverance by undertaking laborious after-school sessions to help excavate and maintain the school's sensory garden for two years.
